

2021 Boehringer Ingelheim/MU Dental CE Weekend

August 28-29, 2021

University of Missouri | Columbia, Missouri

For full information conference details, go to:

<https://cvent.me/zPbWwz>

Speakers

Dr. Richard Meadows

Dr. Meagan Brophy

Dr. Nick Perez

Dr. Eva Ulery

Kacey Lundy, RVT

Michelle Biermann, RVT

Dentistry is a profit center for veterinary practices. If it is not for you, then let us help you change that. Dealing with the dental needs of your clients will also result in an improved quality of life for them (and hopefully you) - **what a deal!**

For DVMs:

In order to be able to cover more subjects, including more advanced but clinically pertinent subjects, all full conference registrants will be expected to access the "how to" guides in the electronic materials to review procedures and skills. These skills will then be practiced in the wet lab on Sunday.

Why attend?

- The lab portions will be hands-on and practical with a low teacher/student ratio.
- During the Saturday lecture period we will present real-life cases and answer common questions we receive from referring DVMs.
- Time for interactive group discussion of questions you have, questions the instructors hear frequently (from practitioners and clients) and case-based discussions.
- In the bonus lab session Sunday afternoon, to the extent possible, lab attendee's requests to learn specific procedures will be accommodated.

Important Info:

- Attendance at the lectures is required for entry into the wet labs.
- We will provide you access to electronic files including "how to" guides for the procedures we will cover in the tech and veterinarian labs (e.g., maintaining equipment, sharpening equipment, taking and interpreting oral radiographs, cleaning, polishing and charting, saving fractured teeth, extracting teeth, raising flaps and common periodontal surgery procedures).
- Register today! Attendance to the Sunday (DVM only) wet lab will be limited to 50 veterinarians.
- This may be the last time Dr. Meadows runs this event; Dr. Brophy anticipates continuing the tradition after this year.

Lecture Program for Veterinarians/Veterinary Students

8 hours CE for lecture; 12 hrs. CE with lab

Saturday, August 28.

7:45-8:15 AM	Registration and Continental Breakfast ☆ Foyer of Adam's Convention Center
